

# Details about My Invention: JV-Scan

## 1) The title of the invention?

**Jv-Scan** (Jupiter Voice Scan)

## 2) Field of invention:

It is an Invention in the Field of Medicine/**Alternative /Holistic Medicine** and is a new integrated system with its own Diagnostics as well as Treatment Options without Drugs or Medication.

## 3) Summary of invention

**JV-Scan** is a new Diagnostic Tool in the History of Medicine as per the Guidelines and Standards Laid down by W H O for achieving Disease Prevention.

Till date Allopathic Traditional System of Medicine has ruled , with an array of Diagnostic tools and Treatment options; **Drugs/Surgery**.

It's a Part of **Curative Diagnosis**, that is for Curing a Disease.

However None could be Helpful in achieving Disease Prevention.

There was a need for a system for **Preventive Diagnosis**, which would diagnose the Disease Process at an Early stage to bring about its reversal.

**With this in Mind and the W H O guidelines**, I began my Research in order to have a new Diagnosis System for Early detection and Root Cause Analysis.

I was able to complete **stage One** of My Invention with the Development of the Software for Interpretation of Voice by June 2013.

Since then the System has undergone many changes to bring Pin Point accuracy in finding out the Missing Frequencies and Highlighting the Frequency Associations at the Micro level:

- **The Emotional Level**
- **The Cellular Level**
- **The Physical Level**

Initially we were Highlighting only the Missing Frequency Associations in Bringing About Balancing of the **Body Mind & Soul** by The Same Frequencies, as part of Our **Sound Therapy Regimen**.

Changes were Brought Forward in due course of Time and We added **Hyperactive Associations** too, that represented the Balancing Done on Part of The Human Body to Tackle the Associations of the Missing Frequencies.

**The Next Part** was to Conduct Trials on Patients Visiting us.

**From June 2013 till May 2017**, over 1400 people were Treated with the Missing Sound Frequencies, as Detected By **Jv-Scan** and there is a Long List of Diseases that were Reversed , By taking care of the Negative Emotions Trapped with in the Subconscious Mind ( **Removal of Trapped Emotions** Leading to **Re Programming of the Subconscious Mind.**)

Here is a List of a few:

### **LIST OF DISEASES/Disorders CURED WITH IN 30 DAYS: With Healing Code Therapy**

"Agency FB", sans-serif;"<![endif] -->50. Resentment

"Agency FB", sans-serif;"<![endif] -->51. Gloom

**In May 2017**, we also completed the Development of **Android Application for Recording of Voice**, which is the First of Its Kind.

The Samples Recorded from any where in the world can be sent Directly to our Server and **Therapy Sessions** can be sent to clients anywhere in the world.

**Jv-Scan as A Machine** is the Next Project in the Pipeline. Right Now it is an integration of a few on line and off line **Software** plus **Mobile Phone Application**.

Detection of **Missing Frequencies** is Done By **Reading the Voice Grap**

**There is a Separate 2 day Workshop to learn this Technology.**

**4) Prior Art or existing technology in the field of invention, existing process or existing product.**

**Voice Analysis** has been done in the past by **Forensic Experts** to detect the spoken lie and match the 2 samples of voice.

Much has been done in the field of **sound healing** by various players and **inventors** who developed complicated devices that were meant to deliver sound frequencies to the body.

None passed the tests by **AMA and FDA** due to the occurrence of Large no of side effects.

"Agency FB", "sans-serif";mso-fareast-font-family:"Agency FB";mso-bidi-font-family:"Agency FB" <![endif] -->5) **Handicaps of the prior art** which this invention proposes to obviate steps of the process and the reference in which these steps are to be carried out should be clearly stated and what are the essential steps of the process and which are the optional or preferred steps.

**Not much has been done or achieved in the field of Voice analysis for the purpose of wellness and achieving a Healthy Body.**

None of these have ever utilized the process of **Finding Missing Frequencies** in the Body and achieving A Healthy Mind Body Soul **utilizing these Missing Frequencies.**

"Agency FB", "sans-serif";mso-fareast-font-family:"Agency FB";mso-bidi-font-family:"Agency FB" <![endif] -->6) **Other parameters of the invention** if any for it to be effective and efficient for carrying out the process of the invention.

This invention has 2 Modules:

- 1. Diagnostic tool**

"Agency FB", "sans-serif"; mso-fareast-font-family: "Agency FB"; mso-bidi-font-family: "Agency FB" <![endif] -->2. **Therapy tool**

It is being utilized as a **Diagnostic tool** to find out the Root cause of the Debility as per the **Guidelines of W H O.**

Therapy consists of **Sound Frequencies** only and no Drugs/Medication is being Utilized.

**The Diagnostic tool** tells us about **all Missing Frequencies** in the Body, which are given as Therapy Sessions.

"Agency FB", "sans-serif"; mso-fareast-font-family: "Agency FB"; mso-bidi-font-family: "Agency FB" <![endif] -->7) **A few detailed practical example** of the process of the invention. That is Details of the invention.

We live in a fast moving society and with each breath we take, we plunge ourselves deeper into the trap of Stress, created by Modernization.

The Rat race makes us Vulnerable and we are unable to cope up with the same in time, leading to a state of chronic Stressful state, in which changes begin First up at the Emotional Level, before spilling into the Blood or the Cellular level and finally into the Physical Level as a Full Blown Disease.

If there is Stress and leading one to a Diseased state, there must be something that has a solution to this too? Why even fall sick ? Why not Protect oneself?

These were the tag lines I started working on.

For not being in a stressed state and then not falling sick in the Body, much was to be studied regarding wellness and disease prevention.

Much has been said and done regarding wellness

**Wellness is talked about as a :**

- Parameter to Good Health..
- Means to keep you fit in the Body mind and Soul
- A way to Keeping the Body light

**Wellness is defined** as a state of complete physical, mental, and social well-being, and not merely the absence of disease or infirmity."

**Wellness means good health**

**Wellness Means Freedom From Disease**

After studying wellness in details including its dimensions as described by Dr **Dr. Bill Hettler**, co-founder of the National Wellness Institute (NWI), I came to a conclusion that wellness is never achieved as described .

**Health promotional activities** fall short of achieving this state of wellness, Therefore in order to go beyond; we needed something else.

This is due to the fact that we have **little knowledge regarding :**

- Various Modalities that bring about Wellness at all levels as described, collectively.

- The deeper aspect of wellness
- The Journey we call wellness and its Final Destination

We hop from one player to Another hoping to achieve wellness , which in fact never happens.

**Why?**

Because we have no Modality or a system that can help us in achieving the :

**Soul, Mind , Body Balance**, as described by its definition, **at one time**.

- **We visit one wellness centre** for **Soul Balancing** to achieve **Spiritual Wellness**.
- **We visit another wellness centre** for **Mind Balancing** to achieve **Emotional Wellness**
- We visit **yet another wellness centre** for **Body Balancing** to achieve **Physical Wellness**.

This is not only **time consuming** but also **Painful** to the end user as the expectations with in him/her never get fulfilled and the Results may not be the same as expected.

**Standards laid down by W H O in Geneva Convention 1984 for Disease Prevention:**

## 1. Primary prevention

Primary prevention addresses **the root cause of a disease** or injury

And Comprises of **Health promotion activities** that: do not target a specific disease or condition but rather promote health and well-being on a very general level . These are Non-clinical life choices such as :

- Eating nutritious meals
- Exercising daily

**Both prevent disease and create a sense of overall well-being.**

**However: Is it Really Happening ?**

- **It is falling short of:** Not mentioning the **Modalities, Methods** or **Techniques** that it may Suggest To Bring about **Root Cause Analysis**.
- **It Falls Short of:** Taking Disease Prevention Beyond the Level of Primary Prevention , Because of non availability of Tools to do so.

## 2. Secondary prevention

- Deals with latent diseases and attempts to prevent asymptomatic disease from progressing to symptomatic disease.
- Aims to detect and treat a disease early on.

- Secondary prevention consists of "**early diagnosis and prompt treatment**" to contain the disease and prevent its spread to other individuals, and "**disability limitation**" to prevent potential future complications and disabilities from the disease

**Here again it seems to seem theoretical as we don't know as of any Modalities Available to do so.**

### **3. Tertiary prevention( The Allopathic Traditional Medicine)**

Attempts to reduce the damage caused by symptomatic disease by focusing on mental, physical, and social rehabilitation.

- Preventing pain and damage.
- Halting progression and complications from disease
- Restoring the health and functions of the individuals affected by disease

There fore it becomes clear As per the **Standards laid down by W H O** in Geneva Convention 1984, Wellness First and Disease Prevention Later can only be Achieved, when:

#### **1. Root Cause Analysis is Possible**

"Agency FB", "sans-serif"; mso-fareast-font-family: "Agency FB"; mso-bidi-font-family: "Agency FB" <![endif] -->2. **Stage wise Progression** of the Disease Process is Highlighted

"Agency FB", "sans-serif"; mso-fareast-font-family: "Agency FB"; mso-bidi-font-family: "Agency FB" <![endif] -->3. **Methods and Procedures** to reverse this progression are available to do so.

**Keeping this in mind** , I made further research, in a hope to filling up and Bridging up these Lacunae.

There was a need to bring up a **new Diagnostic tool** that would aid in:

**1. Root Cause Analysis**

**2. Highlighting a stage wise Progression of the Disease Process**

"Agency FB", "sans-serif"; mso-fareast-font-family: "Agency FB"; mso-bidi-font-family: "Agency FB" <![endif] -->3. In order to **Reverse this Progression** by means, Method, Techniques, Procedures and Skills.

This is How the Birth of **JV -SCAN** took place. It was Launched in Chandigarh on 24 June 2013.

It further took up the place of being an essential diagnostic tool in:

- Root cause Analysis : Based on the Identification of Missing Frequencies
- Bringing about reversal of the Disease Process: By administering these Missing Frequencies.

**9) Full working of the invention if it is a process**

**Jv-scan** requires the following to be Carried out:

- **Laptop with the software for voice analysis**
- **Laptop Microphone**
- **Mobile App:** We have Developed it and its on Google Play Already

It is done as under:

We record Clients Voice of Only 30 seconds . This can be done by laptop or by App both.

The Voice Graph is then Subject to Interpretation in Terms of:

- Missing Frequencies
- Weak Frequencies
- Imbalanced Frequencies

And also the **Level of Such Frequencies** in terms of :

- Emotional Level
- Cellular Level
- Physical Level

**A Voice Analysis Report** is then Generated by means of **on line software** made by our Developers in Chandigarh and handed over to the Client.

**The Missing frequencies** are then added together to make a **track of Sound Frequencies** and the Client listens to it as per the Instructions.

## 10) The precise advantage of the invention.

### Jv scan and Missing Frequencies as Sound Therapy advantages

The Only complete integrated Modality that Aids in:

- Identifying the root cause of your Ailments: **Root Cause Analysis.**
- identifying the List of **Trapped Emotions** Lodged in the Sub conscious Mind
- Identifying the **Balancing** done by your Conscious Mind & its results on your emotional quotient
- Identifying the **Stage wise Progression of your Disease Process** from the **emotional level** to the level of **Blood** and subsequent changes in the Blood Profile & Its Further Progression into The **Physical Body** with Predictive Involvement of Organ or System ..If you don't wake up..still.
- Identifying **Missing Frequencies** or Other Measures to Bring about the **Reversal of the disease Process.**

The **Only Diagnosis Tool in Alternative Therapies** that Identifies the Following in Just one Click:

- -Imbalances In: **The Chakra System.**
- -Imbalances in : **The Meridian System.**
- -Imbalances in the **5 Elements System** and
- -**Neurotransmitter** imbalances
- -**Amino acids** Imbalances
- -**Proteins** Imbalance
- -**Vitamin** Imbalances

- -**Hormonal** Imbalances
- -**Imbalances of** : Minerals , Ions, Electrolytes In the Blood

**Finally**, The **disease Outcome**, with specific list indication of particular set of Organs as a result of these Imbalances if not Corrected In Time.

## **JV -SCAN: UNIQUE SELLING PROPOSITION.**

- **Copy righted** and under Trade Mark Protection
- The Only "**Root Cause Analysis**" Faculty in the History Of Medicine.
- The Only tool that gives a **full Body reporting inclusive of all 12 Systems** in the Body: In just 30 Seconds.
- The Only tool available in the World, That aids in **Prevention of Disease**.
- The Only tool that aids in Disease prevention, Not Just highlighting one Organ , But **all 12 Systems** working in the Body I,e **Whole Body scan**: In Disease Prevention.
- The Only Tool that **improves the Coping Mechanism** of the Mind, so you don't progress from Relaxed State to a **stress Zone**.
- The only modality in Alternative Medicine that can give indication of **what frequencies are to be used** & all are customized.
- The Only Modality that address the **Issues of the Sub conscious Mind**.
- -The Only Modality that Aids in The **Re programming of the Subconscious Mind** and Help release the **Mind Clutter** By bringing the Negative Emotions from the deep recesses of the **Subconscious to the Superficial Conscious Mind** and thus aids in **Releasing The Trapped Emotions**.

## **Advantages of Jv-Scan:**

- User Friendly

- Cost Effective
- Painless
- Highly specific in its Diagnostic Ability
- Highly Sensitive for each Individual
- All Reporting's are Customized and based on each clients Graph.
- The Only available Modality for : **Preventive Diagnosis.**

**11) All the possible variations should be clearly highlighted..**

This is the First Integrated System of Its Kind with No Variations right now.
